## **DETAILED ACTION**

### ***Claim Objections***

Claim 1 is objected to because of the following informalities: Claim 1, Line 11, "devices" should be --device--. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 recites the limitation "the gear" in line 2. There is insufficient antecedent basis for this limitation in the claim. It appears that claim 7 should depend from claim 2. NOTE: claim 16 would be a substantial duplicate of claim 7, if claim 7 were rewritten to depend from claim 2.

Claim 8 recites the limitation "the rotary driving connection" in line 2. There is insufficient antecedent basis for this limitation in the claim. While claim one recites "rotary driving connection" in line 14, this is only a description of the type of connection between the driving shaft and piston rod, it does not appear to be a structural element of the device.

Claim 10 recites the limitation "the gear" in line 2. There is insufficient antecedent basis for this limitation in the claim. It appears that claim 7 should depend from claim 2.

Claim 9 is rejected due to its dependence from claim 8.

***Allowable Subject Matter***

Claims 1-6 and 11-16 are allowed.

Claims 7-10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. 7320198, 7159699, and 6516567 each disclose adjustable length actuators.
